

See Wood Differently

A curated journey through the world's finest veneers, surfaces and interior solutions.

The best ideas rarely begin at a desk.
They begin in conversations. In discoveries.
In moments when a material reveals a
possibility you hadn't considered before.

The Coast to Coast Experience Centre is
designed as a place for exactly that.
A place to explore veneers, surfaces and
craftsmanship from around the world.
A place to pause, browse, exchange ideas
and discover what materials can become
in the hands of great design.

Some materials change a space.
Others change the way you see it.
